

Unlocking potential  
in young people

## What is Sky Academy?

We believe that every young person has potential; they just need the right opportunities to unlock it. Sky Academy works with young people from primary school right through to starting their career, using the passion we share for TV, creativity

or sport, to build skills and experience. We link up with schools and bring together inspirational role models to offer a range of opportunities, supported by Sky staff and well-known faces from our TV channels.

### Apply for work experiences and employment opportunities

**Sky Academy Starting Out** opens up Sky to young people, offering work experience and employment opportunities to help them prepare for the world of work. We support them to gain experience in their chosen career path, and encourage them to share their ideas and take on new challenges so they get the best start to working life.

Apply on our website  
[sky.com/academy](http://sky.com/academy)

### Let teachers know they can get their schools involved

**Sky Sports Living for Sport** is a free multi-week and one-day sports project for secondary schools across the country, supported by world-class athlete mentors, to inspire young people and help them to build confidence and practical skills.

**Sky Academy Skills Studios** is a free half-day interactive experience in London and Scotland, giving 8 to 18-year-olds the chance to come behind the scenes at Sky and make their own TV report, linked to topics they are studying at school.

Tell teachers to visit
